

Dnipro corridor (Inhulets reported separately) p42 floodplain domain

Inhulets valley (backwater)

■ PRIMARY: Monte-Carlo p05-p95 (1000 coherent worlds)
 — total, terrain as delivered (no residual bias removed)
 — reconstructed newly inundated area (MC median)
 ■ U-Net U2b persistent event flood (v004, three seeds: range)

— reconstructed total water-surface area, MC median
 ◆ S1 total dark water
 ◇ S1, partial coverage
 deterministic nominal run
