

Kakhovka pool: the modelled water extent (terrain-reconstructed) and the Sentinel-1 VH dark surface, which after ~13 June is wet mud as well as water

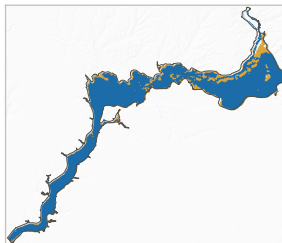

(a) model 06-07  
2054 km<sup>2</sup> water

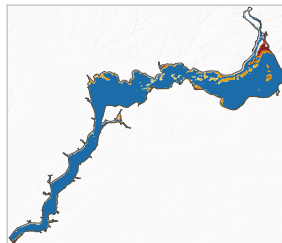

(b) model 06-09  
1956 km<sup>2</sup> water

(c) model 06-13  
1790 km<sup>2</sup> water (upper est.)

(d) model: bed dry by  
06-13 (Fig11e after)

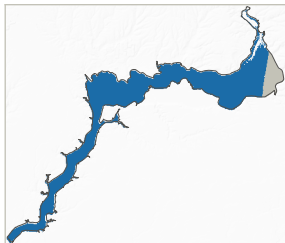

model (p95f surface)

■ pool water  
■ bed exposed since 06-05

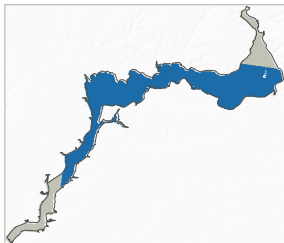

day of exposure

■ 06-06  
■ 06-07  
■ 06-08  
■ 06-09-10  
■ 06-11-13  
■ wet on 06-13

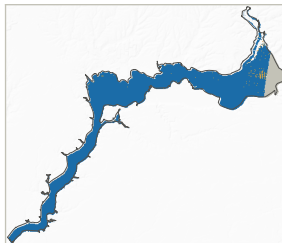

(e) S1 06-01  
1964 km<sup>2</sup> dark, IoU 0.98

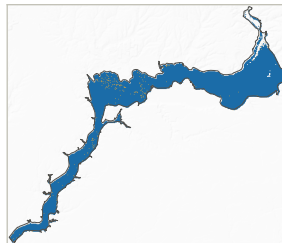

(f) S1 06-08  
1705 km<sup>2</sup> dark, IoU 0.97

(g) S1 06-13  
1938 km<sup>2</sup> dark, IoU 0.84

(h) S1 06-21  
2077 km<sup>2</sup> dark, no model

Sentinel-1 (VH, Otsu)

■ VH dark: open water  
or smooth wet mud  
■ dark on 06-01, not now  
■ pool not observed
